

Water Quality Report Coming In June

Our number one priority is to deliver high-quality water to your tap. Be sure to look out for our annual Consumer Confidence Report which will provide information on San Juan's 2019 water quality. This year, our water met, or in some cases, achieved a quality better than state and federal drinking water requirements.

The report will be posted on sjwd.org/consumer-confidence-reports-water-quality-reports in June and sent in an e-newsletter.

San Juan's Commitment During State of Emergency

San Juan Water District will continue to offer reliable, high-quality water to you during this uncertain time. Our administration office is temporarily closed to the public but will open once the emergency has passed.

All payments can be made by mail, phone, or online using your Visa, MasterCard or checking account information. For assistance, please email customerservice@sjwd.org or call **916-791-0115** during normal business hours, Monday through Friday, 8:30 a.m. to 5 p.m. We are happy to help!

New Rebate Program Available for Weather-Based “Smart” Sprinkler Controllers

Ready for an upgrade? Save 65 percent on a Rachio 3 Smart Sprinkler Controller through a new rebate program offered by the San Juan Water District in partnership with the Regional Water Authority. The Rachio 3 typically retails for \$220 for an eight-zone system, but is being offered at a reduced rate of \$75 plus tax. We pick up the rest. You will be responsible for installation.

The Rachio 3 acts like a thermostat for your sprinklers, using local weather conditions to adjust how long your sprinklers run. The controller automatically reduces sprinkler runtimes when the weather is cooler and increases them when the temperatures rise. You can also manage the controller from your smart phone with the Rachio app.

It's estimated that replacing a standard controller with a WaterSense-labeled smart controller like the Rachio 3 can save an average home about 13,500 gallons of water per year. Rebates are available for a limited time on a first-come, first-served basis until funding is exhausted. Rebate details, eligibility requirements and a link to the application are available at [BeWaterSmart.info](https://www.bewaterSMART.info).

Get Your
Irrigation
System In
Tiptop Shape

It's easy to make sure your irrigation systems are in prime shape for warmer weather. We usually ask you to contact us to conduct a landscape irrigation review before turning on your irrigation system, but because of limitations imposed by safety measures to address COVID-19, we are providing resources for you to conduct your own. Visit [BeWaterSmart.info/residential-resources](https://www.bewaterSMART.info/residential-resources) and look at the Publications information for resources. You will have your irrigation system in tiptop shape in no time!
